

Product information | TECHNICAL DATA SHEET
WATER BASED PAINT.

GENERAL DESCRIPTION

Matt acrylic, fast drying paint with high pigmentation for refilling markers, for use with airbrush, and paint brush. For professional and artistic use where high quality material is required.

FEATURES

- Very fast drying.
- High quality.
- High opacity.
- Excellent levelling.
- Easy and smooth application.
- Good hardening.
- Good covering capability.
- Does not contain lead nor other heavy metals.
- Does not contain scented solvents.
- Highly weather resistant once dry.
- Long lasting color.
- Good U.V. resistance.

PHYSICAL PROPERTIES

- Shake well before use.
- Easy to refill markers because of its measuring cup lid.
- Depending on use, adjust the paint's viscosity in a container on the side.
- Once opened, make sure the container is closed tightly.
- Product dilutable with water and permits up to 15% ethyl alcohol or acetone dilution.
- Request material safety data sheet.

PHYSICAL PROPERTIES

Binding type:	Acrylic
Color:	See chart
Shine 60° (ASTM D-523 ISO 2813):	<20%
Dry to the touch (ASTM D-1640 ISO 1517):	10'
Completely dry (ASTM D-1640 ISO 1517):	12h

*Date last review: 24/11/2015

PACKAGING

Nominal capacity: 200 ml.

CAUTION

APPLICATIONS

Product is suitable for use on all types of porous or non-porous surfaces (do test first). Suitable for interior and exterior use. Formulated with highly U.V. resistant pigments.
