

Product information | TECHNICAL DATA SHEET

REFILLABLE SPRAY CAN (Solvent refills)

400 ml

GENERAL DESCRIPTION

Pressurized containers ready for filling spray paint cans in a quick, easy, and clean way. They contain gas and universal solvent.

FEATURES

The general features of the paint will vary depending on the nature of the product it is refilled with.

APPLICATIONS

The general features of the paint will vary depending on the nature of the product it is refilled with. Using aerosol makes for a versatile and easy application.

INSTRUCTIONS FOR USE

- Read and follow the refilling machine's instructions closely prior to the refilling process.
- Never refill with more than 200 ml of paint.
- Once full, shake the can well before use for approximately one minute after hearing the sound of the mixing ball. Test spray away from the area to be painted until the spray released is uniform.
- Turn the aerosol upside down to purge the valve after use, if the nozzle is stuck replace it for a new one.
- Do not apply on plugged-in electrical equipment and use in well-ventilated areas.
- Ask for MSDS.
- There may be paints that are not compatible with the gas and solvent.
- Once two component paints are refilled into the can's interior, they will have the same pot life as indicated on their manufacturer information.

PHYSICAL PROPERTIES

Solvent: Ethyl acetate
Valve: Male / Female

LABEL

CAP SYSTEM

Pocket Cap
Fino - Thin

CAUTION

APPEARANCE

PACKAGING

Nominal capacity 400 ml.
Heat resistance of packaging: <50°C
Propellant: DME

Box (6 units)
205 X 140 X 200 mm.

FILLING MACHINE

Pneumatic filling machine.
For filling up small, individual amounts of spray paint. Easy to adjust pressure gauge. Detachable piston for filling that adjusts to the paint receptacle cylinder. 32 x 35 x 78 cm.

MZ0000045

Measurements:
690 mm. (Altura)

Accesorios:
Machine cup and Teflon.

REFILLABLE SPRAY CANS (Waterbased Refills)

400 ml.

GENERAL DESCRIPTION

Refillable spray cans for filling water-based spray paint cans, easy-to-use and with an easy cleanup.

FEATURES

The general features of the paint will vary depending on the nature of the product it is refilled with.

APPLICATIONS

The general features of the paint will vary depending on the nature of the product it is refilled with. Using aerosol makes for a versatile and easy application.

INSTRUCTIONS FOR USE

- Agitar muy bien el aerosol antes de usar, aproximadamente un minuto después de oír el ruido del mezclador.
- Fill the cup until the maximum fill indicator.
- Insert the can into the aerosol filling machine to proceed with the filling of the can. Follow the instructions of the machine.
- Once filled, shake the aerosol well before use, about a minute after hearing mixer noise. Spray outside the painted area to observe a uniform pulverization.
- Turn the aerosol upside down to purge the valve after use, if the nozzle is clogging replace it for a new one.
- Do not use on electric equipment and use in well-ventilated areas.
- Request the material safety data sheets (MSDS).

PHYSICAL PROPERTIES

Solvent: Alcohol isopropílico
Valve: Female
