

Product information | TECHNICAL DATA SHEET

MULTI-PURPOSE OIL

400 ml, 9.7 Oz, 277 g.

GENERAL DESCRIPTION

Multi-purpose oil. A product formulated with oils, solvents and additives that allow for great power of penetration, lubrication and protection of metals against corrosion. It has highly penetrating and lubricating properties, achieving spectacular results in the release of jammed metal parts. It softens the metal joints and eliminates noise. It is an excellent product for its moisture displacing characteristics. It reaches the most inaccessible of places, lubricating and protecting against corrosion. Compatible with fats and oils of any kind.

FEATURES

- Highly penetrating lubricant.
- Easy to apply.
- Good for loosening seized parts.

APPLICATIONS

- General lubrication for any mechanisms, locks, hinges, garden tools, etc.
- Loosens nuts and bolts and mechanisms that are seized due to dirt and disuse.
- For home renovations, workshops, and outdoor activities, etc.
- Essential for general industrial, shipping, and mechanic workshops and in construction for lubricating springs, cables, construction props, etc.

INSTRUCTIONS FOR USE

- Never apply to equipment that is plugged in and use in well ventilated areas.
- Shake well and spray generously onto the parts or mechanisms that need to be unblocked or lubricated, or where moisture needs to be displaced.
- Let the oil penetrate the part(s) and then move the mechanism or part(s) so the product can fulfill its function.
- Request safety datasheets.

PHYSICAL PROPERTIES

Color: Transparent
 Olor: Characteristic
